

## Kahler Glen Firewise Guidelines

Following are a few basic things you can do to improve the safety of your landscaping:

- Create a 3-5 ft fuel-free area around your home
- Keep plants thinned and well spaced
- Prune tree branches 6-10 ft from the ground
- Clear leaves and other debris from gutters, eaves, porches and decks
- Choose Firewise plants

A plant list and more information is available at [Firewise.org](https://www.firewise.org).

If you would like to have a Firewise risk assessment done for your property, please contact Lake Wenatchee Fire and Rescue at (509) 763-2270.
